

Flood Mitigation Plan Task Force

Over the past several years, Santa Rosa County has made significant progress in its efforts to address flooding problems in the county. Seeking to build upon the progress that has already been made, a Flood Mitigation Plan Task Force, comprised of both staff members and community residents, has been assembled to develop a plan to address flooding issues.

The Flood Mitigation Plan must be prepared according to a standard planning process regulated by FEMA, by following the 10 steps listed below:

1. Organize to prepare the plan
2. Involve the public
3. Coordinate with other agencies
4. Assess the hazard
5. Assess the problem
6. Set goals
7. Review possible activities
8. Draft an action plan
9. Adopt the plan
10. Implement, evaluate and revise

Public participation is strongly encouraged. For questions or comments, or to take part in the Flood Mitigation Plan planning process, please call Sheila Harris, Special Projects/Grants at 850-983-1848.
