

Freedom book will be published and distributed throughout our Nation's school system as ancillary academic textbook to be used primarily in support of both History and Civics curriculum for grades 7, 8, and 9. The AudioVisual book is a revolutionary NEW interactive digital multimedia reading technology that takes the best features of the traditional paperback textbook and adds AUDIO and VIDEO.

Freedom will be available this year in out school system as part of the seventh grade curriculum. It will also be available to the public thru the Veterans Memorial Plaza for download on your home computers. Students will also have access to the AV Book Library to download various school book readers required for each grade level 1-12.
