Payment will be made within thirty (30) days of the date of approval by the County.

Contractor Section

The following major provisions must be observed in bidding for and completion of all rehabilitation work performed under the Santa Rosa County SHIP/HOME Program.

This section sets forth requirements and procedures with respect to construction contracts for rehabilitation and related activities. Construction will be undertaken only after a written contract between the Contractor and the homeowner/recipient of the individual loan or grant has been executed.

Form of Contract

The construction contract will consist of a single agreement signed by the Contractor and the recipient following approval of the loan/grant by Santa Rosa County. It shall include the Contractor's bid, general conditions, and the specifications for the work to be performed. The Contract form shall be provided by Santa Rosa County Attorney.

Contract Procedure

The following major provisions must be observed in contracting for and completion of all rehabilitation work performed under the Santa Rosa County SHIP/HOME Program.

1. Bid proposals must specify the name of the owner and the address to which the Contractor's bid pertains. Proposals must be submitted on behalf of the homeowner to the appropriate County office identified in the public notice before the closing time and date.
2. Appropriate notice will be given as to the date and time by which a bid will be received or accepted.
3. A pre-bid conference will be held prior to each bid opening. The purpose of this meeting is for contractors to bring any omission, alterations, and recommendations concerning the work write-up to the attention of County staff. This is an opportunity to make suggestions prior to bidding and failure to do so will demonstrate the contractor's acceptance of the work as defined, and therefore any obvious omissions will become the responsibility of the contractor. No obvious omissions type of change order, resulting in additional cost, will be considered after the subject pre-bid conference. The contractor or appropriate representative is required to attend the pre-bid conference.
4. When identical dollar amounts are bid on a specific project, the County reserves the right to make a determination as to award of the contract. The basis of this decision will be the work schedule and work capacity of the contractors involved.
5. Contractors' bid for work shall be accepted or rejected within thirty (30) days from the established receipt date.

6. County staff will notify the successful bidder of the award of the contract immediately upon approval of the required documents, or within 45 days of acceptance of bid, whichever occurs first.
7. Following an award, the appropriate binding contract documents will be approved and signed by all parties. No work is to be undertaken without such contract or prior to issuance of a written notice to proceed. Contractor shall commence with active field construction of the project within seven (7) days of receipt of the notice to proceed. After 30 days the job will be passed to the next eligible bidder.
8. The contractor to whom any bid is awarded shall provide the County with a cost breakout of each aspect of the job prior to commencement of the work. If this is not followed, the County estimate will be used to evaluate the cost of any deletion in the scope of work.
9. A notice of commencement will be filed on each job in conjunction with the issuance of the notice to proceed.
10. The contractor must satisfactorily complete all the work within the contract period from the date of “notice to proceed.” No allowance or extension will be given for inclement weather or other events. The only exception to this policy would be in the event of a natural disaster such as a hurricane or major flood. For each day in excess of the contract period, the contractor may be assessed liquid damages in the amount of \$250 per day. Should a contractor’s completion date fall on a weekend or holiday, the job must be 100% complete and ready for inspection on the morning of the next working day in order to avoid the assessment of a damage charge.
11. In order to qualify for payments beyond the contract amount, all work must be substantiated by a written change order approved by the County, the contractor and the homeowner.
12. All invoices will be approved by the homeowner. The following must be complete in order for the contractor to qualify for the final draw.
