## *Purpose*

The P-1 and P-2, Park and Recreation Districts, are intended for lands used for passive or active recreational functions. It is also intended that these districts be applied but not necessarily pertaining to lands to be conserved and protected such as open space, estuarine areas, public and quasi-public lands, spoil sites, cemeteries, etc.... These districts are also intended for outdoor sports and recreational activities in which the participants are actively engaged, but which may also provide entertainment for spectators. The activities for which the P-1 Districts are provided are normally and primarily conducted in the open air while related accessory activities may be in the open air or in a building or structure. The functional characteristics of a P-1 District may require its location within, or in close relationship to, residential areas, public recreational areas or scenic areas. Because of the nature of uses involved and the variety of arrangement of uses and facilities, a development site plan shall be required to be furnished to the Community Planning, Zoning and Development Division for approval prior to improvements being installed. These regulations shall apply to public as well as private recreational land and facilities.
