In A Just-Gettin'-By World

What is Getting Ahead?

Getting Ahead in a Just-Gettin'-By World is both a workbook and a learning experience. During a 15 session course, participants work in groups to investigate their community. The Getting Ahead Investigator explores the world through economic class and begins to develop a future story for themselves using the tools in the workbook. As an Investigator you learn about the "hidden rules" of class that can help you move toward a more sustainable future!

Use Getting Ahead to...

- To take the first steps toward building your "Future Story"
- Find a (better) job and learn how to keep it.
- Recognize and reach goals
- Become financially secure
- Attain further education
- Make your own choices and learn to use personal and community resources.

I am interested in becoming a paid investigator and learning how to build a better future for myself and my community.
