

Host Families Needed

There are homeless kids in our schools?

"Unaccompanied Minors"

Youth under the age of 18 who do not live

at home; they may have left or

been kicked out due to family conflict,

disruption or financial difficulties

"Couch Surfers"

Many teens sleep in the homes of friends,

relatives, or acquaintances, often on the couch

or floor. Some stay with strangers which puts

them at risk

- Do you have room in your home to provide a safe living space for a youth in need?
- Do you have a desire to mentor, support and encourage a teen to help them succeed in school?
- Will you accept a student into your home who has no place else to go regardless of race, religion or sexual orientation?
- Do you want to be someone who truly makes a difference in the life of an at-risk teen?
