Subject: RE: Fireworks

Julie,

The Navarre Chamber Foundation agreed to coordinate the Fireworks for July 4 provided SRC TDO/TDC covers all cost for the Fireworks contract, reserves and pays for the pavilion, and handles press releases. Since this is a county event, it is assumed the county will cover any event insurance requirement.

The Foundation will coordinate with the pyro company prior, during, and after the event and will be physically present during the event to make any last minute event decisions. The Foundation will inspect the site the day before and the following day as well. The Foundation will coordinate with all public safety agencies and schedule and pay for any costs associated with public safety support.

The Foundation will charge a flat coordination fee of \$1000.

Please let me know if you have any other questions.

Thanks,

Mike
