Fine with me Chris, I assume we would pay this from impact fee funds since it is for south end pedestrian/bike path.
Hunter

Mr. Walker,

Attached is the fee from American to provide the more in depth services I described in my email this morning. Upon your OK, I will have Tracy prepare a proposal document for your signature so we can get them started with the analysis.

Mr. Walker,

We had received a price from American Consulting back in March to look at a pedestrian crossing across Tom King Bayou at East Bay Blvd. My last involvement was that Roger was going to discuss it with you regarding if we should go forward or not.

I believe Tracy would still honor the proposal sent... certainly we'd check with her again.

We felt it appropriate to have a bridge engineer that has experience in pedestrian bridges provide an appropriate estimate so we could move forward with applying for FDOT LAP funding to connect the two sidewalks on either side.

Let me know how you'd wish to proceed.
