Joel D. Haniford, OMB Director

12/21/2006

To: Company Addressed

From: Santa Rosa County Procurement Department

Subject: **Addendum #1** for RFP-Shutters

Clarification on Shutter RFP

- The Public Services Building at 6051 Old Bagdad Highway does NOT include the Engineering Building that at first glance may appear as part of the same structure. The Engineering Building is at the right back of the Public Services Building, as you face the front of the building. This section is newer with double pane windows.
- The Public Services Building opening counts in the original RFP were for the exterior windows and doors, not those inside the atrium area. Vendors may give the County an optional bid for a window treatment for the interior windows and doors.

Thank you,

Diane Ebentheuer
